BINGO

know your family

Bingo is a game for fun. I just gave some twist as per my necessity. I always encounter kids who are not even bothered what's happening at home. It will update the kids about the dynamics of family.

HOW TO PLAY....

All members sitting together and each member will get one sheet and then they need to fill the answers of the questions mentioned in the sheet and If they don't know some answers they can find the answers by interacting with each other. Whoever finishes the first will be the winner.

WHAT I AM TARGETING HERE.....

- Social Interaction
- Family bonding
- To know each other better

This version I created considering my family dynamics. You all can use the same or make your own. You can change as per your requirements. If you want a copy, I will be happy to share. Just drop your email in my Inbox or PM me.

I hope you will enjoy the game.....
